

SANITARY DISTRIBUTION SYSTEMS FOR OFF-SITE INSTALLATIONS

SANITARY DISTRIBUTION SYSTEMS FOR OFF-SITE INSTALLATIONS

THE ADVANTAGES OF THE TECO SYSTEM

SAVE TIME

A system quick and easy to install.

- Patented Fastec quick connection
- Possibility of desktop assembly
- No specific tool required
- Reduced delivery times
- No maintenance

REDUCE THE INSTALLATION'S DIMENSION UP TO 30%

Compact and robust system.

- All components are designed to maximise compactness
- Unbeatable in installations in tight spaces
- Interceptions centralised in one single point

ERROR FREE WITH FASTEC

Fastec connection, no error possibilities.

- The connection can be made in one way only: the correct way
- No specific training required
- Also suitable for built-in installations

SAFETY AND GUARANTEE OF SUCCESS

Proven connection, with over 20 million installations worldwide:

- The connection is resistant to transport vibrations and on-site assembly shocks
- Advanced technologies and high quality of materials
- Seal guaranteed through static compression O-Ring

MAXIMISE THE CUSTOMISATION OF YOUR INSTALLATION

Flexible and modular system

- 360° rotatable components
- Multidimension
- Multimaterial
- Multisystem
- New technology TECOFIX the easy way to put components together for the creation of customised systems

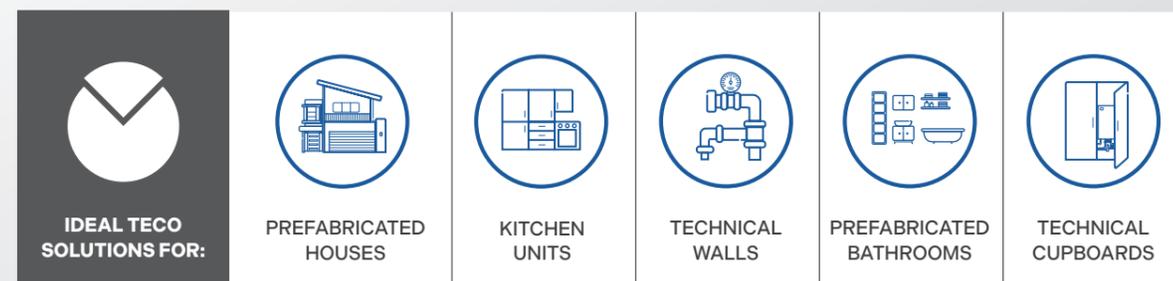

COMPLETE RANGE

A wide selection of modules, manifolds, valves and fittings

- It responds to multiple installation needs
- Components for installation of external and built-in systems
- Design cover plates
- Connection compatible with the best pipe system on the market, guaranteed by the manufacturers

Multiple solutions for built-in and external applications

IDEAL TECO SOLUTIONS FOR:

PREFABRICATED HOUSES

KITCHEN UNITS

TECHNICAL WALLS

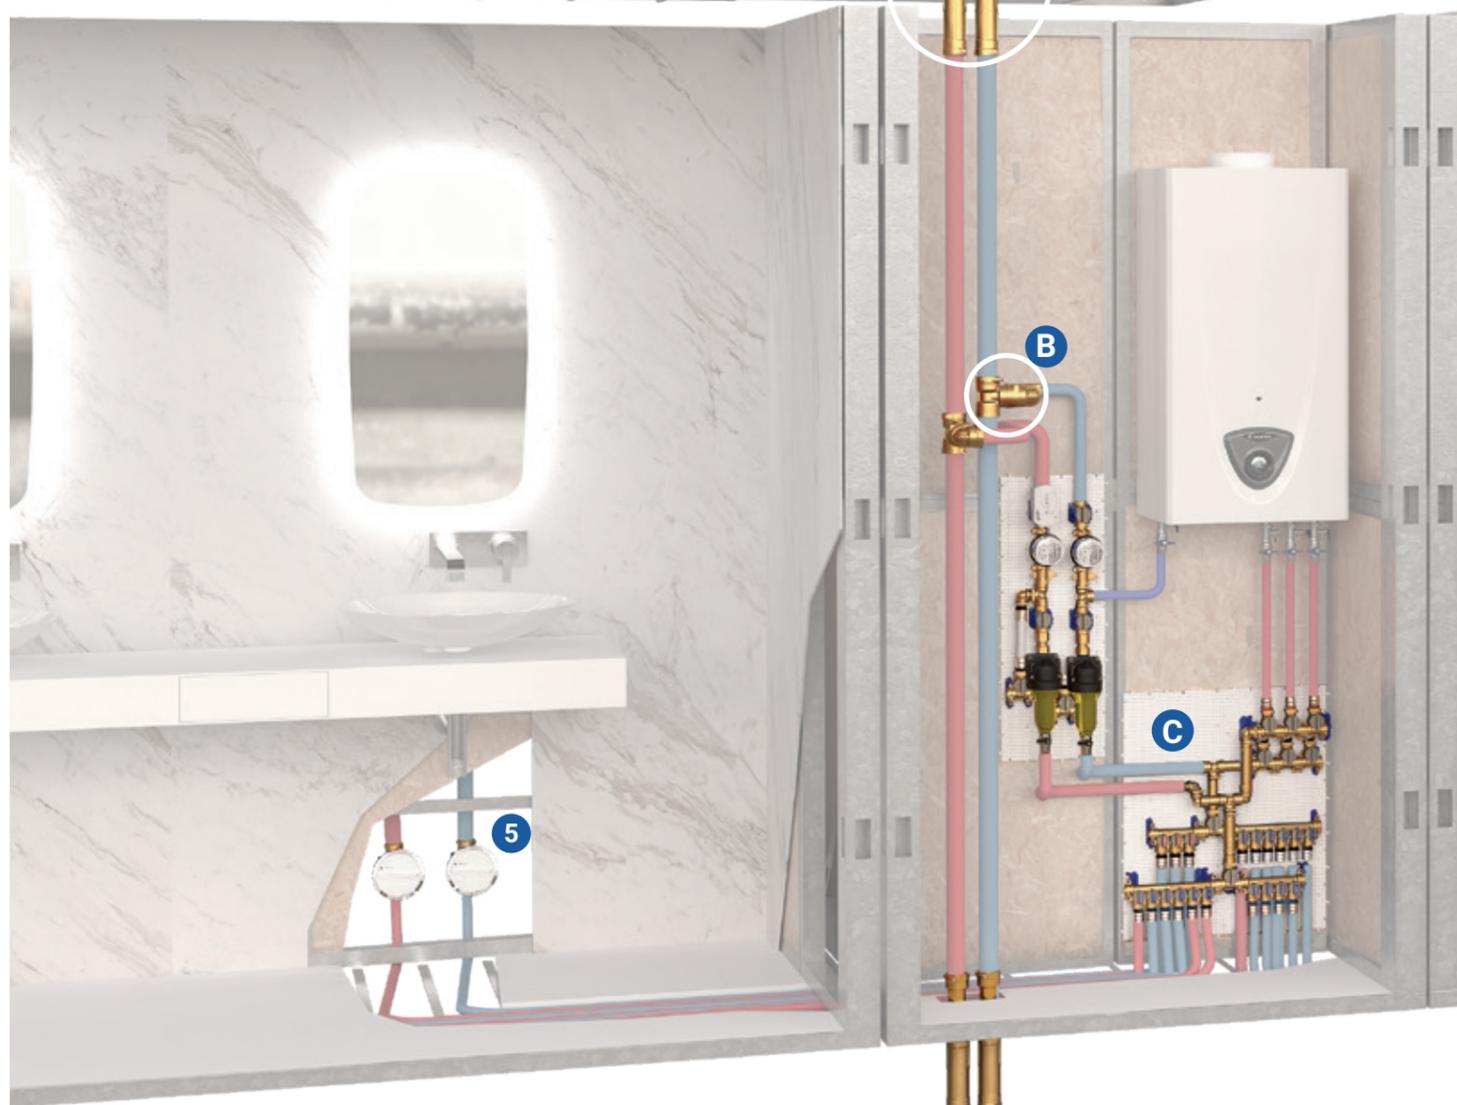

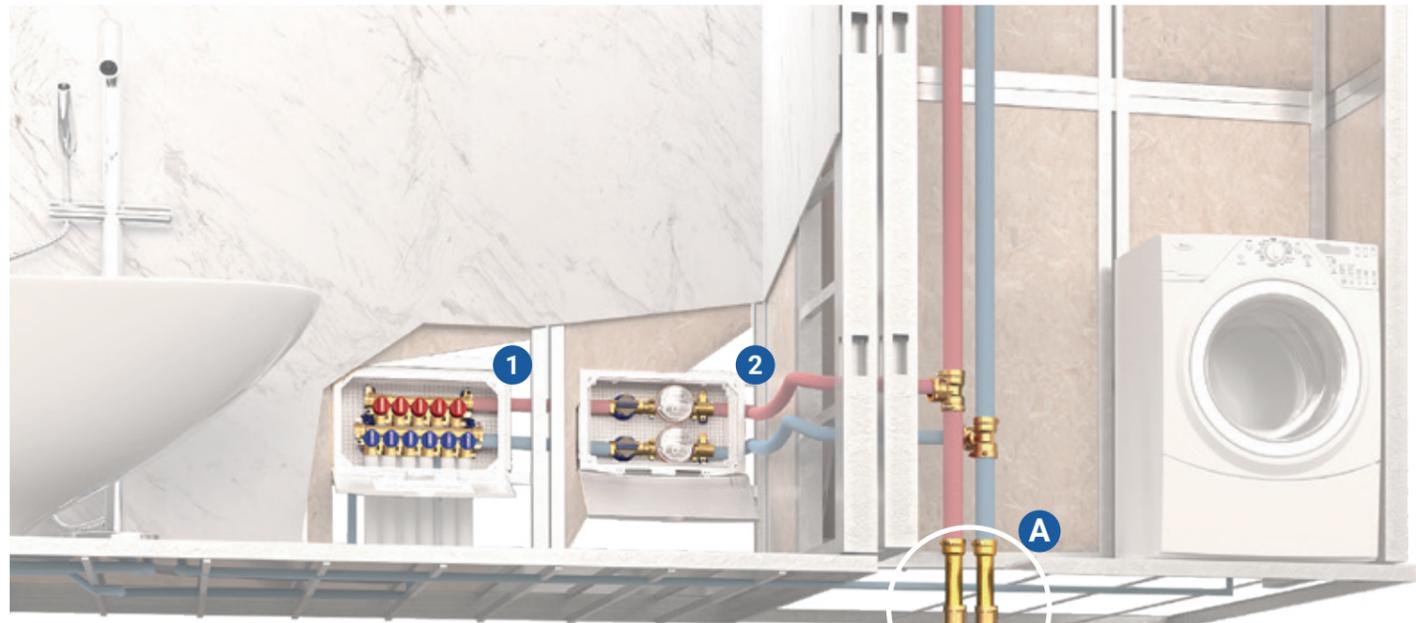

PREFABRICATED BATHROOMS

TECHNICAL CUPBOARDS

TECO's sanitary distribution systems have obtained DVGW and WRAS compliance certification, demonstrating total reliability.
