FASTENING ELEMENTS

E03 Compatible faceplate

TECOFIX MODULAR FIXING PLATE

TECOFIX FLUSH-MOUNTING BOX

TECOFIX FIXING BRACKETS

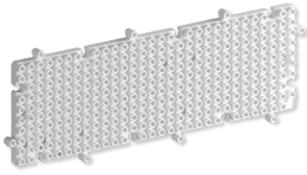

FEATURES

- Range of modular components for hydraulic, heating and sanitary distribution systems.
- The TECOFIX fastening system simplifies installation on the construction site and allows for the arrangement of preassembled modules.
- Thanks to TECOFIX, the modules provide a solid and robust reference point for anchoring the system to the structure.
- Through the **FASTEC®** system, the connections between modules and pipes are quick and safe.
- The system as a whole is designed to maximize compactness, making installation easier in confined spaces.
- The design of the components ensures fast and easy installation, delivering a clean and organized result that showcases the installer's professionalism.

Applications
For sanitary and hydronic systems

TECOFIX fixing Plate

Code. TXA01
TECOFIX COMBINABLE FASTENING PLATE

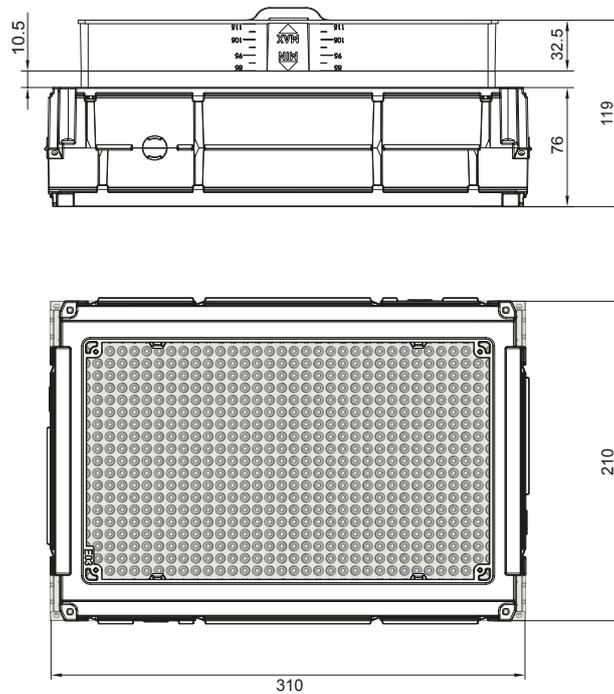

TECOFIX Flush-mounting BOX

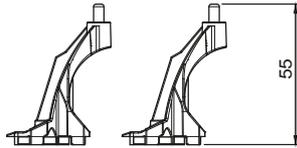

Code. TXA02
TECOFIX FLUSH-MOUNTING BOX

Includes:

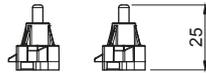

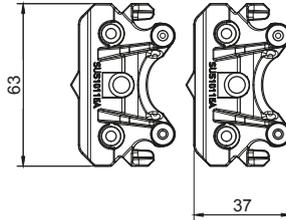

- Site protection cover
- Fixing mounts

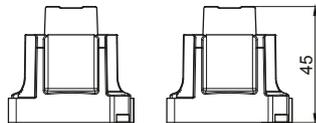

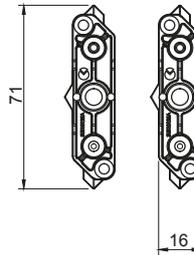

TECOFIX fixing brackets

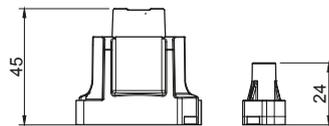

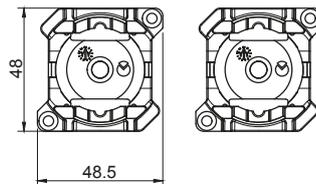

Code. TX001
High brackets kit

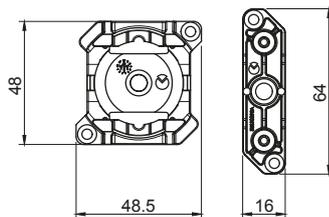

Code. TX002
Low brackets kit

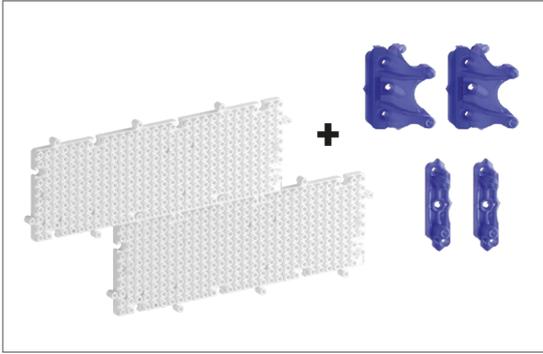

Code. TX003
Brackets kit for straight valves

Code. TX004
Brackets kit for meters

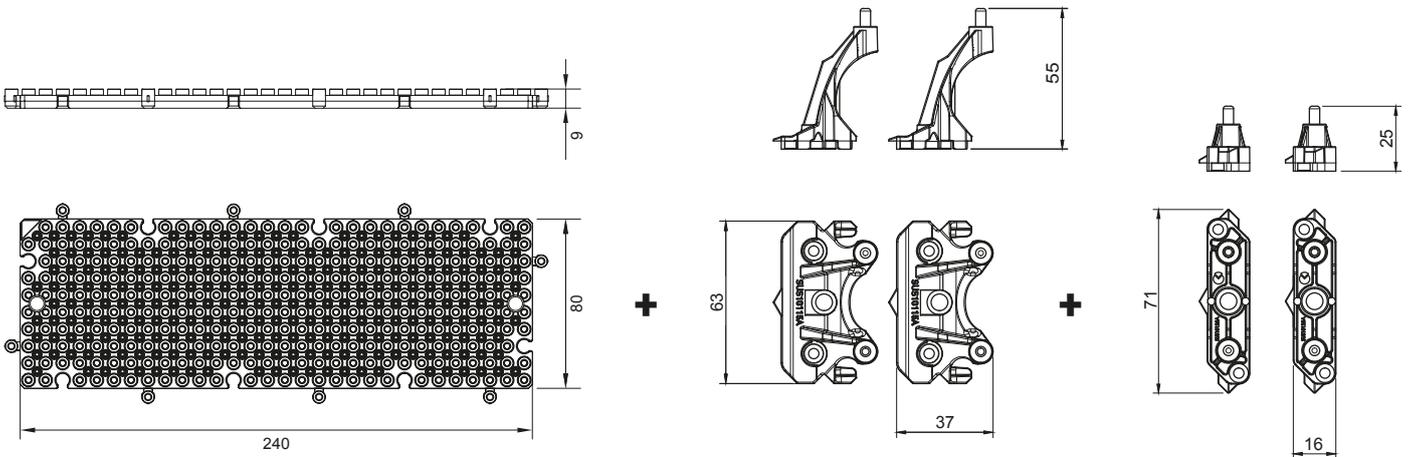

TECOFIX fixing kit

Code. TX005

Kit for manifold and valves

E03 Faceplate with magnetic closure for flush-mounting box

Includes:

- Fixing screws

SPECIFICATION TEXT

K-BLOC: Modular components and fastening system for plumbing and HVAC distribution

Modular compact components for the construction of water, heating and sanitary systems. A selection of modules, manifolds, valves, adapters and fittings for an easy and fast installation or for the preparation of preassembled modules that reduce on-site assembly time to create ready-to-use and compact solutions that meet the multiple system requirements in both new constructions and renovations. Quick-connect fittings with FASTEC technology and non-removable fixing pin; TECOFIX Components (brackets, mounting plates, boxes for flush-mounted installations ...) designed for the assembly and fastening of the K-BLOC system components.
